Fah Mai Holdings Re-Envisioned: A Revenue Focused Ferrari-Design Brand Rehaul For All 3 Sectors

An execution-led proposal to launch a 2026 A-tier web package that propels Fah Mai Holdings, Platinum Cask and Whisky Bull into a new era of digital leadership: future-proof technology, Ferrari-calibre design and stunningly responsive, AI-assisted websites.

Under Kailan's leadership, Most Wanted specialises in the design-led, AI-assisted transformation that could catapult Fah Mai into its next phase of growth. I began developing all three websites with my existing technology stack, but reached my available AI-credit limit before completing them. This proposal lays out the vision and a clear path to delivery.

A Confidence & Transparency Led FMH Shape-Up

A Breathtakingly User-Friendly Auctioning System For WB

Re-Envisioned Frontend, A Powerfully Simple Backend.

A 3-Stage, 10–20 Day Plan To Re-Envision FMH & Subsidiaries.

- Fast Execution
- Right First Time
- Future Proofed
- Unbeatable Design
- Competitive Pricing
- Unlimited Features
- Ongoing Support

01 We discuss the vision in person at your office or over Zoom.

02 We confirm Phase 1, including funding for AI development credits.

03 First drafts arrive within three days. The project deposit is then taken.

Thank you for considering my proposal,
Yours truly,

Kailan Spall

Owner of Most Wanted (and, if all goes well, your #1 salesman)

Three brands. Three buying journeys.

Public-facing assessment — strengths, conversion opportunities and what still needs evidence.

01 **FAH MAI HOLDINGS**

Corporate credibility & high-value enquiries

Bulk spirit trading, distribution, cask sales and portfolio services are represented across the corporate site.

PRIORITY TO TEST Service-specific CTAs, enquiry ownership and enquiry-to-meeting conversion

02 **WHISKY BULL AUCTIONS**

Buyers, consignors & membership

Its public journey includes registration, buying, selling, wishlists and auction information.

PRIORITY TO TEST Registration completion, consignment enquiries and reactivation

03 **PLATINUM CASK**

Cask discovery & considered purchases

Whole casks, fractional cask interests and bottlings serve different levels of buying intent.

PRIORITY TO TEST Product enquiry capture, qualified consultations and follow-up

IMPORTANT: This is not a technical audit. Traffic, revenue attribution, CRM access, current close rates and compliance controls must be verified before performance claims or targets are agreed.

Clear scope. Visible accountability.

One owner, defined deliverables and a measurable commercial process.

01 **Journey & tracking map**

Document the priority acquisition path from source through enquiry, qualification, meeting and sale. Establish owner-approved baseline events.

OUTPUT
Funnel map + KPI baseline

02 **Lead capture & routing**

Review forms, enquiry prompts and handoffs so buyer, seller, cask and corporate prospects reach the appropriate team.

OUTPUT
Approved journey fixes

03 **Follow-up & sales playbook**

Build qualification criteria, compliant response sequences, objection frameworks, and a simple handoff or consultation process.

OUTPUT
Scripts + CRM workflow

04 **Reporting & coaching cadence**

Weekly pipeline review, enquiry response times, booked conversations, stage conversion and revenue feedback.

OUTPUT
Weekly executive scorecard

BOUNDARIES

Existing auction, payments, asset ownership and regulated-investment systems remain unchanged without separate technical, legal and management approval.

An investment with a testable return.

Commercial terms are editable. The case is built around contribution, not vanity metrics.

COMPONENT	INVESTMENT
Phase 01 · Discovery & baseline Access review, selected funnel and 14-day plan	£ TBC
Phase 02 · Pilot execution Journey improvements, follow-up and weekly reporting	£ TBC
Phase 03 · Optional expansion Additional brands or continued optimisation — only if justified	By approval

How little improvement must this generate?

Use gross contribution per incremental sale — not total revenue — to evaluate the pilot.

Pilot investment

Move quickly. Report honestly.

A practical sequence of milestones, responsibilities and sign-offs.

WEEK 01	**Agree one outcome & access** Nominate a decision-maker; provide analytics, lead data and permissions. Confirm the priority customer journey.	SCOPE SIGN-OFF
WEEK 02	**Baseline & approved quick wins** Deliver a brief audit, funnel map, issue list and 90-day action plan.	BASELINE ACCEPTED
WEEKS 03–06	**Execute & iterate** Launch agreed fixes, improve response and qualification, review conversations, report weekly.	WEEKLY SCORECARD
WEEKS 07–12	**Evaluate & decide** Compare results to baseline, identify contributing factors, recommend expansion or closure.	EXECUTIVE REVIEW

Authorise discovery. Judge the results.

A 30-minute decision meeting to nominate the pilot journey, confirm scope and agree the commercial terms.

The 90-day growth pilot.

A focused commercial engagement with decision points rather than an open-ended retainer.

DAYS
01–14

DISCOVER

Find the real constraints.

Review lead sources, conversion paths, current pipeline, response times and sales process. Select one measurable priority journey.

DAYS
15–45

DEPLOY

Fix the highest-value leaks.

Improve the selected journey, qualify leads, implement approved follow-up, coach conversations and publish weekly results.

DAYS
46–90

PROVE

Optimise what converts.

Compare against baseline, refine the process, document repeatable wins and present the expansion or stop decision.

VISIT / LEAD → QUALIFIED → CONVERSATION → COMMERCIAL OUTCOME

Commercial principle: No promise of a specific uplift before data access. The deliverable is a transparent process with measurable weekly progress and a documented 90-day recommendation.
